EXIT Ticket: Use formula	[a]	[b]
" A = s² " to give the area	4 cm	
of each square to the		
right.		
Show all your working		
and lay your working as		3.2 m
shown in the "Worked		
Solutions Videos" in each		
Practice Set.		
Be sure to include the		
appropriate units of		
measurement for each of		
your answers.		
You may use a calculator		
to help you.		
EXIT Ticket: Use formula	[a]	[b]
" A = s² " to give the area		2.7 m
of each square to the		
right.		
Show all your working		
and lay your working as	9 cm	
shown in the "Worked		
Solutions Videos" in each		
Practice Set.		
Be sure to include the		
appropriate units of		
measurement for each of		
your answers.		
You may use a calculator		
to help you.		
EXIT Ticket: Use formula	[a]	[b]
" $A = s^2$ " to give the area		7.8 cm
of each square to the		
-		
right. Show all your working		
and lay your working as	3 m	
shown in the "Worked	5 111	
Solutions Videos" in each		
Practice Set.		
Be sure to include the		
appropriate units of		
measurement for each of		
your answers.		
You may use a calculator		
to help you.		

Exit Tickets page 2: SQUARES	5 – <mark>area</mark> using formula A = s²	http://www.learnersgrid.com
EXIT Ticket: Use formula	[a]	[b]
" A = s² " to give the area	2 cm	
of each square to the		
right.		
Show all your working		
and lay your working as		9.3 m
shown in the "Worked		5.5 11
Solutions Videos" in each		
Practice Set.		
Be sure to include the		
appropriate units of		
measurement for each of		
your answers.		
You may use a calculator		
to help you.		
		-

EXIT Ticket: Use formula	[a]	[b]
" A = s² " to give the area		3.9 cm
of each square to the		
right.		
Show all your working		
and lay your working as	0	
shown in the "Worked	8 m	
Solutions Videos" in each		
Practice Set.		
Be sure to include the		
appropriate units of		
measurement for each of		
your answers.		
You may use a calculator		
to help you.		

EXIT Ticket: Use formula	[a]	[b]
" A = s² " to give the area		5.7 cm
of each square to the		
right.		
Show all your working		
and lay your working as	44	
shown in the "Worked	11 m	
Solutions Videos" in each		
Practice Set.		
Be sure to include the		
appropriate units of		
measurement for each of		
your answers.		
You may use a calculator		
to help you.
