

[a]

Find the fully simplified expression for the perimeter of this rectangle:

**[b]**

Find the fully simplified expression for the perimeter of this rectangle:

**[c]**

Find the fully simplified expression for the perimeter of this rectangle:

**[d]**

Find the fully simplified expression for the perimeter of this rectangle:

**[e]**

Find the fully simplified expression for the perimeter of this rectangle:

**[f]**

Find the fully simplified expression for the perimeter of this rectangle:

[g]

Find the fully simplified expression for the perimeter of this triangle:

[h]

Find the fully simplified expression for the perimeter of this triangle:

[i]

Find the fully simplified expression for the perimeter of this triangle:

[j]

Find the fully simplified expression for the perimeter of this triangle:

[k]

Find the fully simplified expression for the perimeter of this triangle:

[L]

Find the fully simplified expression for the perimeter of this triangle:

[a] $36y + 4$

Find the fully simplified expression for the perimeter of this rectangle:

[b] $62y + 4$

Find the fully simplified expression for the perimeter of this rectangle:

[c] $14y + 6$

Find the fully simplified expression for the perimeter of this rectangle:

[d] $20y - 14$

Find the fully simplified expression for the perimeter of this rectangle:

[e] $14y + 8$

Find the fully simplified expression for the perimeter of this rectangle:

[f] $14y + 2$

Find the fully simplified expression for the perimeter of this rectangle:

[g] $9y + 2$

Find the fully simplified expression for the perimeter of this triangle:

[h] $16y - 6$

Find the fully simplified expression for the perimeter of this triangle:

[i] $19y + 4$

Find the fully simplified expression for the perimeter of this triangle:

[j] $14y - 2$

Find the fully simplified expression for the perimeter of this triangle:

[k] $14y - 3$

Find the fully simplified expression for the perimeter of this triangle:

[L] $16y + 3$

Find the fully simplified expression for the perimeter of this triangle:
