**Addition Worksheet (Adding numbers with 4 digits or more)**

**Questions (show all working)**

1) Each carton holds 1980 M&Ms and 4777 grains of rice. Give the total number of M&Ms and grains of rice.

2) On its journey to nowhere in particular, a frog managed to jump 815115 times, and also blink 4688 times. How many times in total did the frog jump and blink?

3) During a musical show the Clarke family put their hands together to clap 2720 times. The crowd gave their fair share of applause - and many people whistled, too. As a whole, the crowd decided to whistle 8229 times. In total, how many times did the Clarke family clap, and the crowd whistle?

4) A certain spider lays 2719 eggs each year. Now, if a certain tree has an annual yield of 9637 berries, how many eggs and berries are there in total?

5) Crazy Raptor has saved 2802 punwallops and 5249 stadwilers. Give the total number of punwallops and stadwilers.

6) On the far and distant lost continent of Peezzel there are 744853 males and 5868 females. Give the combined male and female population of Peezzel.

7) A tiny mouse has managed to collect 127364 seeds and 9295 blades of straw to help create a cosy and warm place to live - with lots to eat, of course! In total, how many seeds and blades of straw did the mouse collect?

8) An enthusiastic reader of historical fiction novels, Myerpree read 2825 pages during her Christmas holiday, and 5913 pages during her Easter holiday. Give the total number of pages Myerpree read over the course of those two holidays.

## Addition Worksheet (Adding numbers with 4 digits or more)

### **Answers**

- 1) 6757
- 2) 819803
- 3) 10949
- 4) 12356
- 5) 8051
- 6) 750721
- 7) 136659
- 8) 8738
